[PART II] Activities, Hazards and Risks

The services of **KOSIR'S RAPID RAFTS INC.**, may include renting equipment and providing trips (including guided trips) by raft, kayak or "fun yak" (referred to, collectively, as watercraft). Activities, scheduled and unscheduled, voluntarily and involuntarily associated with these services may include, in addition to travel by water, swimming (referred to as anytime Participant is in the water), wading, hiking, climbing on rocks and slopes, camping, portaging (carrying the watercraft between water travel sites) and travel to and from the activities.

The hazards and risks (together referred to as "risks") of the use of the watercraft include the following: entering, exiting and operating the watercraft; water which may be fast, deep, cold and subject to rapid change; objects which may be encountered in and out of the water, and which may not be obvious, including debris, trees, rocks, boulders, dams, bridges, and other hazards; the watercraft may overturn, swamp and sink and occupants may become separated from the craft; feet and other parts of the body may become entrapped in or under rocks and other objects; participants may strike or be struck by objects, other watercraft and other persons, in and outside of the watercraft. Risks of other activities include those associated with camping, hiking, and moving on and over terrain, including the shoreline, the premises of Provider and others, and elsewhere, which may be unstable, steep and slippery and where rocks, trees, and other objects may fall, and man-made and natural structures may fail: animals, including poisonous reptiles, and poisonous plants may cause harm; swimming in unfamiliar surroundings may cause entrapment, injury from slips and falls and drowning. Other risks include errors in judgment of Provider's staff and other participants, including the improper assessment of capabilities and conditions pertaining to the activities; certain activities may be instructional, and designed to extend the skills of participants; equipment may be misused or fail because of manufacturing defects or otherwise; collisions may occur while traveling by vehicle to and from the activities; the activities are subject to the unpredictable forces of nature, including exposure to the sun, cold, wind, hail, lightning, flash floods and other such phenomena; activities may take place in remote places, significantly delaying emergency medical care and evacuation.

Participant, and the parent or guardian of a minor Participant, acknowledge and understand that the description of the activities and risks above is not complete and that all activities, whether or not described, may be dangerous and may include risks which are inherent and cannot be reasonably avoided without changing the nature of the activity. Participation in the activities can cause bites, stings, allergic reactions, overexertion, heat stroke, hypothermia, illness due to contaminated water, burns cuts, bruises, strains, broken bones, and other injuries and illness. Property loss, and serious injury and death, including by falling and drowning, are possible.

Kosir's Rapid Rafts Inc. has made no effort to determine, and accepts no responsibility for, medical, physical or other qualifications or the suitability of Participant, or other participants, for the activities. Client, and the parent or guardian of a minor Participant, accepts full responsibility for determining Participant's medical, physical or other qualifications or suitability for participating in the activities. Provider is not responsible for the water conditions, routes, or other activities of renters of its equipment. Certain activities may be conducted by independent contractors hired by Provider. These contractors are not trained or supervised by Provider and Provider has no control over them and accepts no responsibility for their conduct. Alcohol will, and other substances may, impair judgment and reduce a participant's ability to effectively manage the risks of water travel, camping and land activities; Participants should inspect unfamiliar rapids and other hazards before attempting to pass through or over them; participants should always wear a fastened life jacket (personal flotation device) and helmet; participants should wear footwear which will provide protection from sharp objects, and which will minimize the risk of foot entrapment. Failure to adhere to these and other safety precautions may result in serious injury or death.
